Delivery

Delivery is not included in all pricing mentioned above. Inquire logistics costs according to your location.

Assembling

Assembling is not included in all pricing mentioned above. BB 20 and BB 40 could be easily assembled by customer on spot with BBB toolkit. However you could inquire assembling service either by BBB team or local construction company with accordance to our Guidelines. Costs according to your region.

Guarantee

- Main power structure 15 years, estimated lifetime 50 years
- Decoration materials 5 years, estimated lifetime 25 years

Guarantee is valid under condition of appropriate and careful operations and maintenance and do not cover any damages occurred by customer fault or by any kind of force majeure circumstances.

Buy back option

We offer to our customers a buy back option in case the union is not needed any more or customer decided to downsize the property. Buy back price offer is due to the condition of the BBB elements and is limited by 75% of the initial cost. Buy back offer does not cover optional equipment. Buy back offer does not cover transportation and disassembling costs.

NB! Buy back option is applicable for promotional units only.

Risks

All risks of possible damage or injury to buyer or third parties in self assembling purchase are at customer's side.

Production time

Orders in 2019 - 3 months
